

TL;DR: Help fund ~~career~~ passion development by purchasing UUu merch!

Albany High School Senior Quote

Elon Musk and Jack Ma disagree on a lot of things, but they do agree on one thing: the answer is love. However, that's too ambiguous.

I believe the answer is in loving what we do for work, because that is how we spend the majority of our waking hours. If we love how we spend our time, we will inevitably love ourselves, love our lives, and in turn love others.

UUu LLC is a ~~career~~ passion development firm perfect for dreamers who *know* they are diamonds in the rough that are just biding their time to shine. For 1% equity in your ventures, the squad at UUu LLC will do anything and everything — from fundraising and recruiting to marketing and coaching — to help polish your dream into a self-sustaining company. We won't have succeeded until you are strictly doing what you love as your career, and we believe this will take, at most, 5 years to accomplish from scratch.

Why are we doing this? Because we believe love is the answer for World Peace.

If everyone is doing what they love for their work, then they will love themselves and love others ad infinitum until all of humanity is enveloped in love. We want to pay everyone a comfortable

but not excessive salary to pursue their passions and loves until everyone has reached a point where they can subsist on their own. We believe this can be accomplished by September 11th, 2035, especially with how quickly information travels these days.

We must enable World Peace by 2035 so we can work together, as a global population, to solve the sustainability crisis by 2045. We only have one planet and it's currently on a crash course to zero, truly. However, there's no reason to be anxious or afraid because silver bullets exist, we just need a gatling gun full of them and we are manufacturing the belt of bullets at UUu LLC.

Attention is the most valuable asset, not data. Even powerhouses like Elon Musk and Mr. Beast do not command enough attention to inspire humanity to love itself. Our short-term plan is to conduct unorthodox awareness campaigns — as listed below — to quickly spread awareness.

Marketing expenditures for awareness campaigns:

- **\$1M USD, distribute TrashBots** (AI trash cans with computer screens that automatically sort recycling) **across top-tier universities to advertise UUu LLC**
- **\$1M USD, get the #1 hit album** (my childhood best friend produces music for Justin Timberlake and has worked with Justin Bieber)
- **\$1M USD, comedy special** (I am very funny)
- **\$5M USD, blockbuster movie** (one of UUu LLC's squad, Nitro Icepick, is quite literally the best writer I've ever met, And I've met a *lot* of people)
- **\$10M USD, .uuu ICANN TLD** (I will join the ICANN community and convince them to use Handshake to upgrade the Domain Name System, which has had negligible innovation in the last 2 decades)
- **\$20M USD, sponsor NBA All-Star Celebrity Game** (basketball is the #1 most popular sport in the world and I am very good at it)

If you believe in our mission and strategy for enabling True Sustainability by 2045, the best way to support our activities is by purchasing and publicly rockin' our company merch! Check out our UUu and Green merch at merch.UUu.vip.

As for me, I am very easy to reach — my social media handles are "JayWuzer" on every social media outlet and my Twitter DMs are open. I recommend checking out my Twitter account to get a sense of how I think, and my YouTube channel to get a sense of my personality.

Our goal should be to leave a net-positive effect on the planet before we die. Because if we don't, that means the world literally would've been better without us. And that's just sad.

So let's all love each other and enable True Sustainability, together.

Ciao!
UUu, CEO
Lord Jay "Boss" UUu
